PADDLING SAFETY

Florida law requires that everyone has an approved Personal Flotation Device with them when boating, and children under the age of 6 are required to wear the PFD. The Chipola River is deep in many places and wearing a PFD is an important safety issue, especially for non-swimmers.

CARING FOR THE RIVER

Respect the environment and leave the area in its natural state. Take all bottles, cans, and trash with you. Food scraps are not healthy for animals and wild animals that are fed may become a nuisance. Enjoy the wildlife that you may see, but do not try to have contact with alligators, snakes or other wildlife.

Chipola River Paddling Trail

52 miles of paddling fun and scenic nature.

The Chipola River Canoe Trail is officially designated as part of Florida's Statewide System of Greenways and Trails.

The Paddling Trail begins at the SR 166 Bridge one mile north of Marianna and ends at Scotts Ferry Bridge on SR 71 for a total length of 52 miles.
